*Withdrawal of rating assigned to NCD issue of Rs 44.00 crore bearing ISIN no INE090W07428 which was due for redemption on 18 Dec 2026 was redeemed on 20 December 2024 (Call option date) and hence, the company has requested for withdrawal of rating assigned to the said NCDs and have provided the redemption certificate issued by the debenture trustee. The withdrawal of rating assigned to NCDs of Rs 44.00 crore is in line with Infomerics withdrawal policy.

Press Release

Details of Facilities/Instruments are in Annexure 1. Facility wise lender details are at Annexure 2. Detailed explanation of covenants is at Annexure 3.

Detailed Rationale

Infomerics ratings has reaffirmed the ratings assigned to LFL's bank facilities/debt instruments as it continues to derive comfort from the comfortable capitalisation and experienced management with support from Fullerton Financial Holdings PTE Limited (FFH) through its subsidiary Fullerton Financial Private Limited. However, the rating strengths are constrained by pressure on profitability on the back of increased credit costs given the deterioration in the asset quality and degrowth in AUM on the back of subdued disbursements in 9MFY25.

Infomerics has placed the ratings of the company on "Ratings Watch with Positive Implications" (RWPI), reflecting FFH's committed and ongoing support for LFL through significant equity infusion. FFH has already invested Rs. 799.00 crore between FY19 and FY25, increasing its stake to 43.03% as of December 31, 2024. Furthermore, FFH has committed additional ~Rs 175.00 crore to increase their stake to ~56%, thereby acquiring controlling position in LFL which is contingent upon approval from the Reserve Bank of India (RBI). Infomerics shall resolve RWPI on getting clarity of the aforesaid approval from RBI.

In addition to the Tranche -1 equity infusion, LFL has also availed a USD 20 million "Standby Letter of Credit" (SBLC) backed by FFH guarantee, to support liquidity needs, if any. FFH has representation on LFL's board, and through co-voting arrangements with other private equity (PE) shareholders, it holds significant influence over the company's decision-making process.

FFH has assured Infomerics that it will provide support to LFL whenever necessary, as this investment is FFH's sole presence in India. Infomerics will continue to monitor developments related to the regulatory approval for FFH's acquisition of a controlling stake, as well as improvements in LFL's financial performance.

Press Release

Key Rating Sensitivities:

Upward Factors

- Substantial and sustained growth in scale of operations while maintaining comfortable capitalisation, healthy asset quality, liquidity and profitability.

Downward Factors

- Substantial decline in scale of operations, capitalisation levels, profitability and asset quality from the current levels.

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

Unwavering Support from FFH

FFH has consistently demonstrated strong support to LFL through regular equity infusions and active involvement to enhance its operational performance. Infomerics is of the view that FFH's ongoing commitment, both in terms of tangible financial support and operational assistance, as a key factor that bolsters the ratings.

Comfortable capitalisation

With consistent capital infusions from FFH, LFL has maintained a comfortable capitalization despite substantial growth in its AUM. As of December 31, 2024, LFL's total Capital to Risk-Weighted Assets Ratio (CRAR) stood healthy at 27.74%, up from 21.50% in FY24 (refers for the period 1st April 2023 to 31st March 2024). The company's Tangible Net Worth was recorded at Rs. 707.65 crore, with a moderate gearing ratio of 2.63x as of December 31, 2024.

Experienced management and strategic investors

Lendingkart group was established by Mr. Harshvardhan Lunia, who has over two decade's experience in corporate banking. The second line of management comprises professionals with an average experience of over two decades in the fields of commercial lending, audit, operations and information technology. The board has adequate representation from investors and extends strategic support to the company. LFL is a part of the Lendingkart Group and as

Press Release

on December 31, 2024, it is a wholly owned subsidiary of Lendingkart Technologies Private Limited (LTPL).

The Group's investors include Fullerton Financial Holdings Private Limited (FFH), Saama Capital, Mayfield India, India Quotient, Bertelsmann India Investments, Darrin Capital Management and Sistema Asia Fund, with FFH being the largest shareholder with a stake of 43.03% (as on December 31, 2024) in LTPL. FFH has immense experience in the financial services sector in various emerging markets. FFH has provided continuous strategic guidance towards the improvement of LFL's risk management framework, systems and processes with an increase in the scale of operations.

Technology-based business model

LFL has adopted a branchless business model with most of the operations from sourcing to underwriting being carried out online. LFL uses a proprietary algorithm which provides score for each application filed for its credit decisioning. This supports the entity's ability to scale up its portfolio with limited incremental investment, as well as be present across locations in the country. Given the branchless mode of operations, LFL has achieved presence in over 4100+ cities and around 28 states & 6 Union Territories. LFL's business model now entails a high proportion of off-balance sheet lending (co-lending formed ~68% of the AUM as of December 31, 2024) as it's been able to establish relationships with various banks and non-banking financial companies (NBFCs) under its co-lending arrangements.

Key Rating Weaknesses

Subdued Performance during FY25, likely to improve from H2FY26 onwards

LFL's Assets Under Management (AUM) declined during 9MFY25, falling to Rs. 5,842 crore from Rs 7,254.00 crore in FY24. This decline in AUM is primarily due to LFL's cautious approach on disbursements during 9MFY25, primarily in response to higher delinquencies within its portfolio and the impact of RBIs April 2024 FAQs on digital lending guidelines impacting company's capitalisation with total CRAR declining to 21.50% in FY24. The overall disbursements during FY25 remained low as compared to levels seen in FY24. Going forward,

Press Release

the ability of the company to improve its disbursements while improving its asset quality would be key rating monitorable.

Average asset quality

LFL's asset quality has deteriorated over time, with both Gross Non-Performing Assets (GNPA) and Net Non-Performing Assets (NNPA) rising to 4.77% and 3.23%, respectively, during 9MFY25 (compared to 2.18% and 1.95% during FY24). The decline in asset quality is largely attributed to higher delinquencies, which are a result of the unsecured nature of LFL's lending, coupled with lower collection efficiency due to factors such as the general elections and heat waves that affected the country. Additionally, the degrowth in loan book owing to slow disbursements also contributed to deterioration of asset quality ratios. According to the management, asset quality is expected to improve starting from Q1FY26. Going forward, LFL's ability to improve its asset quality through enhancing its collections will be a critical factor that will be closely monitored

Declining profitability

Due to higher provisions and an elevated cost-to-income ratio, largely driven by lower disbursements, LFL reported a net loss of Rs. 167.82 crore during 9MFY25, compared to PAT of Rs 59.83 crore in FY24. During 9MFY25, the asset quality challenges forced LFL to allocate higher provisions which stood at Rs 337.84 crore, which significantly impacted profitability. Over the last three years, the company has provided approximately Rs. 783.12 crore in credit costs. Return on Assets (ROTA) also saw a significant decline, falling to 1.68% in FY24 from 4.11% in FY23 due to lower profits.

The management anticipates a turnaround in operations starting from H1FY26, driven by a gradual increase in disbursements, which is expected to positively impact the company's financial performance going forward. However, the ability to improve asset quality and enhance profitability through increased disbursements will be key factors to monitor.

Inherent risks associated with unsecured lending coupled with intense competition

LFL caters to the MSME segment, which is highly vulnerable to downward economic cycles given the low cash flow buffers. Further, the entire AUM represents unsecured lending, which

Press Release

impedes recoveries from the harder delinquency buckets. The MSME industry is prone to socio-political and operational risks, which could negatively impact the company's operations and thus its financial position as seen during the pandemic coupled with severe competition by other NBFCs and Banks.

However, the inherent risk associated with the unsecured MSME segment is partly mitigated by the portfolio's coverage under the sovereign schemes of Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE) and Credit Guarantee Fund for Micro Units which could help curtail the net credit losses. Around 64% of total AUM and 81% of on-book AUM as of 31 March 2024 was covered under these schemes.

[Policy on Withdrawal of Ratings](#)

Liquidity – Adequate

The liquidity profile of the company remains adequate with no negative cumulative mismatches in its asset-liability management profile as on 31 December 2024. Further, LFL's has a liquidity cushion of Rs. 350.53 crore in the form of unencumbered cash and Bank balance (Rs. 18.09 crore), unmarked FDs (Rs. 117.44 crore), additional liquidity in the form of SBLC provided by FFH and undrawn/unutilised banking lines (Rs. 142.00 crore) as on 31 December 2024. Also, the company maintains surplus liquidity to cover 10-12 weeks to its

Press Release

debt obligations and operating expenses. IVR does not foresee any liquidity risk in the near term, given LFL's adequate liquidity position and its ability to raise funds.

About the Company

Lendingkart Finance Limited (LFL) is a Lendingkart Group company, which is registered as an NBFC and provides unsecured loans to small and Micro sized enterprises (SME). Lendingkart Technologies Private Limited (LTPL), the technology arm of the Ahmedabad-based Lendingkart Group, holds a 100% stake in LFL. Fullerton Financial Holdings Pte Limited (FFH) had a 43.03% stake in LTPL as on December 31, 2024. The Group was started in 2014 by one of the co-founders, Mr. Harshvardhan Lunia, and raised funds from FFH, Saama Capital, Mayfield India, India Quotient, Bertelsmann India Investments, Sistema Asia Fund and Darrin Capital Management.
