1.	Long Term Bank Facilities	26.59	IVR BBB-/Credit watch with developing implications (IVR Triple B Minus Under credit watch with developing implications)	Assigned
2.	Short Term Bank Facilities	5.00	IVR A3(IVR A Three)	Assigned
	Total	31.59		

Details of Facilities are in Annexure 1

Detailed Rationale

The rating assigned to the bank facilities of Duke Fabrics (India) Limited draws comfort from its experienced of the promoters in the apparel industry, established brand presence through Duke and successful track record. The ratings also positively considers continuous scale of operations and satisfactory capital structure. However, these rating strengths are partially offset by its susceptibility to fluctuations in input prices, working capital intensive nature of operations, exposure to regulated risk. The rating also considers the intense competition prevalent in the textile industry and availability of cheaper substitutes.

Key Rating Sensitivities:

Upward Factor:

- Substantial and sustained growth in operating income, profitability and consequent increase in debt protection metrics and cash accrual.
- Improvement in capital structure and improvement in operating cycle

Downward factor:

- Elongation of working capital cycle driven by pile up of inventory and stretch in receivables.
- Substantial fall in profitability margin resulting deterioration in debt protection matrix.

income Rs 66.17 till December 2019. Company has earned a modest gross cash accruals of Rs.2.71 crore in FY19 (Rs 2.77 crore in FY18)

Satisfactory capital structure

The overall gearing ratio and interest coverage ratio is comfortable at 0.89 times and 2.15times as on March 31, 2019. Total indebtedness of the company as reflected by TOL/TNW improved from 2.11x as on March 31, 2018 driven by decrease in current liability and steady accretion of profit to net worth and remained satisfactory at 1.92x as on March 31, 2019. Further the company has earned as gross cash accruals of Rs 2.71 crore as against its debt repayment obligation of Rs 1.02 crore. The current and quick ratios are moderate at 1.41 x and 0.74x respectively as on March 31, 2019.

Key Rating Weaknesses

Susceptibility to fluctuations in input prices

The major raw materials are grey fabrics, colour, chemical and fuel. Acquiring and storing of adequate amount of inventory plays a very important role in Textile industry. Cotton, wool, silk, jute fabric are agro based, their prices are volatile in nature which may lead to fluctuation in revenue and profitability.

Intense competition prevalent in the textile industry and availability of cheaper substitutes

The company is exposed to intense competition prevalent in the highly fragmented Indian textile industry and faces stiff competition from both organised and unorganised players. Also, the company faces risk from its substitutes such as polyester, cotton and increasing imports leads to cheaper availability of the raw materials. For the competitive landscape, the company faces stiff competition in both domestic and overseas market.

Exposure to regulatory risk

DFIL, like other players in the textile industry, remains exposed to changes in the legal and regulatory environment such as revision of tax rates, changes in import duty, etc.

Press Release

Working capital intensive nature of operations

Operations of the company are working capital intensive, marked by its high operating cycle of 169 days for FY19 as compared to 143 days for FY18. The inventory days are high at around 154 days for FY19, primarily due to high raw material holding period. The finished goods inventory of the company is around 47 days. The finishing of cloth, colour matching and quality of printing to be maintained for the dyeing and printing of fabrics are stringent and have to meet the quality parameters set by the ultimate clients. Before processing the fabric, samples have to be approved by the clients which increases the processing time. It is evident from the fact that the average collection period is 132 days in FY19. DFIL procures raw fabric mainly from suppliers located locally in Ludhiana on credit of around 3 to 4 months. The operating cycle hovered around a 4 to 5 month during the last three fiscals. The company has utilised ~87.32% of working capital in 12 months ended December, 2019.
