

## Press Release

**Civet Projects Private Limited**

**Dec 08, 2020**

### Ratings

Sl. No.	Instrument/Facility	Amount (Rs. Crore)	Ratings	Rating Action
1.	Long Term Bank Facilities	6.66	IVR BB/Stable Outlook (IVR Double B with Stable Outlook )	Assigned
	<b>Total</b>	<b>6.66</b>		

**Details of Facilities are in Annexure 1**

### Detailed Rationale

The rating assigned to the bank facilities of Civet Projects Private Limited comfort from its experienced promoters and management team. The rating also factor its healthy order book indicating near to medium term revenue visibility and comfortable capital structure with healthy debt protection metrics. However, these rating strengths are partially offset by nascent stage of business operations, limited geographical diversity in revenue profile, small scale of operations, tender driven nature of business in highly fragmented & competitive construction sector, inherent risk as an EPC Contractor, and impact of Coronavirus (COVID-19) pandemic.

### Key Rating Sensitivities:

#### Upward Factor:

- ✓ Growth in scale of operations with improvement in profitability, and cash accruals on a sustained basis.
- ✓ Manage working capital requirements efficiently with improvement in liquidity position.

#### Downward factor:

- ✓ Moderation in scale of operations and/or profitability impacting the liquidity profile
- ✓ Moderation in the capital structure with deterioration in overall gearing to more than 1.5x.

## Press Release

### List of Key Rating Drivers with Detailed Description

#### Key Rating Strengths

##### Experienced promoters

The promoters has good experience into the management, planning & implementation of different irrigation projects. Mr. Pavan Kumar Reddy (Director), is an engineer by profession having an experience of over 6 years. Mr. Sreekantha Reddy (Director), is an MBA, has an experience of more than a decade. Infomerics believes that though the operations are at nascent stage, CPPL is expected to benefit from the experienced management team over the medium term.

##### Healthy order book indicating near to medium term revenue visibility

The company has unexecuted order book position of ~244.13 Crore as on date as on August 31, 2020, to be executed in next 2-3 years provide a near to medium term revenue visibility. Going forward, materialization of the already bided contracts and winning of new contracts will be crucial for the company.

##### Comfortable capital structure with healthy debt protection metrics

The overall gearing of the company stood comfortable at 0.55x as on March 31, 2020 (Prov). The debt protection indicators of the company like interest coverage is strong at 5.42x in FY20 (Prov) (42.86x in FY19) and DSCR at 2.23 times in FY20 (Prov) (30.92x in FY19). Total Debt/GCA stood at 1.98 years in FY20 (Prov) as against 1.14 years in FY19. Further, total indebtedness of the company as reflected by TOL/TNW remained comfortable at 1.50x as on March 31, 2020.

#### Key Rating Weaknesses

##### Nascent Stage of Business Operations

The company started its operations from February, 2018 hence it has a short track of operations. Since inception the Company mainly executed contracts on subcontracting basis.

## Press Release

### **Small scale of operation with geographical concentration risk**

The scale of operations of the company remained small with total operating income of Rs.50.34 crore in FY20. Small scale of operations restricts the financial flexibility of the company to an extent. Further, the company is exposed to geographic concentration risk as majority of projects executed in the past and the current order book are concentrated in two states viz Madhya Pradesh and Maharashtra, which constitute 100% of the order book. Consequently, any unrest in these states may hamper the performance of the company to a large extent.

### **Susceptibility of profitability to volatile input prices**

CPPL undertakes projects primarily under engineering, procurement and construction basis (EPC) and are active mainly in the field of Irrigation Projects and other allied construction activities. So the major inputs required by the company steel, cement etc. However, all the ongoing projects contain escalation clause but the same is not sufficient to guard against volatile input material price. Also, Tender based operations limit pricing flexibility in an intensely competitive industry which in turn adversely impact the profitability.

### **Tender driven nature of business in highly fragmented & competitive construction sector**

Execution risks for newly awarded projects in a timely manner will be key to achieving growth in revenues and profits. Business certainty is dependent on the company's ability to successfully bid for the tenders as entire business is tender based. The domestic infrastructure/construction sector is highly fragmented marked by presence of many players with varied statures & capabilities. Boom in the infrastructure sector, a few years back, resulted in increase in the number of players. While the competition is perceived to be healthy, significant price cut by few players during the bidding process is a matter of serious concern for the users with respect to quality of output. CPPL faces direct competition from various organized and unorganized players in the market.

## Press Release

### **Inherent risk as an EPC contractor**

Economic vulnerability and regulatory risks in developing markets, delay in payments from the Government, project execution risk and fluctuating input costs are the key business risk faced by the company in the sector.

### **Impact of Coronavirus (COVID-19) pandemic**

The Company's revenues are expected to be impacted marginally in the short to medium term because there was disruption in the ongoing projects in the first quarter of current financial year due to lockdown imposed to contain the spread of novel coronavirus. Further the second quarter was also impacted due to rains so the work couldn't commence.

**Analytical Approach:** Standalone

### **Applicable Criteria:**

Rating Methodology for Infrastructure Companies  
Financial Ratios & Interpretation (Non-financial Sector)

### **Liquidity - Adequate**

The liquidity profile of CPPL is expected to remain adequate marked by its expected satisfactory cash accrual in the range of ~Rs.6.07-8.85 crore for the next three years as against debt repayment obligation around Rs.2.59 crore. Further, the company has adequate gearing headroom for additional debt with an overall gearing of 0.55x as on March 31, 2020 (Prov.) and the company has no planned capex or avilment of long-term debt plan in the near future which imparts comfort. However, the average working capital utilisation of the company remained more than ~95% during the past 12 months ended October, 2020 indicating a limited liquidity buffer.

## Press Release
