### Detailed Rationale

The revision in ratings is on account of non-submission of monthly Non- Default Statement and information for monitoring of its assigned rating to the bank facilities.

Availability of information is very critical in rating exercise. In the absence of the requisite information, in consonance with SEBI guidelines, Infomerics has to assign the rating based on the best available information.

The lenders, investors and other market participants are thus advised to exercise appropriate caution while using this rating as the rating may not adequately reflect the credit risk profile of the entity, despite the downgrade.
